LUBIN'S CONJECTURE FOR FULL p-ADIC DYNAMICAL SYSTEMS

arXiv:160303631v3 [math.NT] 13 Oct 2016 LUBIN'S CONJECTURE FOR FULL p-ADIC DYNAMICAL SYSTEMS by Laurent Berger Abstract— We give a short proof of a conjecture of Lubin concerning certain families of p-adic power series that commute under composition We prove that if the family is full (large enough), there exists a Lubin-Tate formal group such that all the power series in
